### Platinum Vault TL30X6 Series

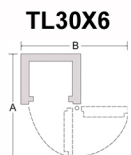

- **High Security UL Rated TL30X6** — Potentially insures up to \$1 Million.
- **Six-sided Protection** — All six sides are constructed with super alloy manganese plating.
- **Burglary Resistant** — Protects against powerful tools such as drills, chisels, sledgehammers, wedges, power saws, carbide disc cutters, and explosive attacks.
- **Fire Resistant** — 350 Degree, Two Hour Fire Resistant Rating. Manufacturer tested at temperatures up to 1850 Degrees.
- **Safe Door** — An impressive 6.75 inches thick, constructed of a high strength blend of PSI cement, including super alloy manganese plating.
- **Safe Body** — Constructed of the same high strength blend of PSI cement, with super alloy manganese plating, has an overall body of 3.5 inches.
- **Bolt Work** — Massive 1.5 inch hardened steel side bolts, chrome fixed bolts, and the all important top and bottom locking steel bolts.
- **Dual Locking** — Sargent and Greenleaf UL Rated Group 2M High Security Chrome Combination Lock and High Security Key Lock.
- **Locking Mechanism** — Protected with random relocking systems. A tempered glass trigger will activate the relocking systems in the event the safe is attacked.
- **Door Hardware** — Chrome Pull Handle and Chrome Tri-Spoke Turn Handle.
- **Shelves** — Easy slide in shelf clips for adjustable shelving.
- **Options** — Left hand swing safe, electronic locks, custom manufactured safes, wooden interiors, additional shelves, and private interior compartments.

The perennial market leader in jewelers' safes, the Platinum Vault TL30X6 by Original stands alone as the premier high security safe. Protected on all six sides, this safe serves as a fortress to a jewelers' diamonds, gold, precious stones, and other valuables. Because criminals fear this safe, many other businesses have also made Original's Platinum Vault TL30X6 the foundation of their security system. Corporate retail stores, antique shops, banks and even homeowners who want nothing but the best purchase the Platinum Vault.

With advanced design features like its world class mechanism door, super alloy manganese plating, and anti-peel Zee Bar structure solidified with a highly developed blend of PSI cement, the Platinum Vault TL30X6 by Original will protect your valuables like no other safe in its class.
